

FINE BUBBLE MEMBRANE DIFFUSERS (BHB-MD225)

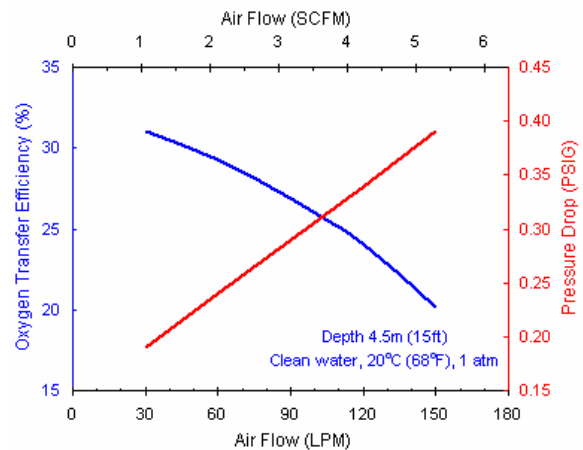

FEATURES AND BENEFITS :

- Ø The heavy-duty membrane with highly durable base which is constructed of molded polypropylene.
- Ø The precision perforated 'I' slits open when airflow is present, close when airflow is stopped, resist tearing, and stay cleaner longer.
- Ø A standard 3/4" diffuser pipe thread makes it convenient to replace other coarse bubble diffusers.
- Ø Stainless steel 304 Clamping Ring tightens to hold the membrane firmly in place.
- Ø Center triple O-rings support the center of the membrane when airflow is absent.

Specification:

Disc diameter	224 mm
Air flow L/min.	40 to 120
Connection	3/4" MPT
Disc body	ABS
Membrane	EPDM
Fixation	304 St. Steel clamping ring
Article No.	90004220

POROUS FINE BUBLE DIFFUSER

FEATURES AND BENEFITS:

- ØHigh-density polyethylene tubes have excellent resistance to chemicals and abrasion.
- ØOmni-directional porous structure, available in fine, medium, and coarse pore sizes, provides uniform distribution of fine bubbles

APPLICATION:

Municipal and industrial wastewater treatment.
Aquaculture aeration
Air agitation in food processing
Foaming of cleaning solutions

Outer Diameter (mm)	Inner Diameter (mm)	Length (mm)	Pore size	Material
25	19	400	2-40 μ	HDPE

Article No. : 90016258

**others measurements can be made by order*
